HY-0SS

Latch Guard

Hardware Accessories

Specifications

Material	304 Stainless Steel
Finish	Satin Stainless Steel
Color	Stainless Steel
Door Type	Outswing Doors
Function	Anti Pry Protection
Installation	Screw Fixing
Application	Residential and Commercial Use
Accessories	304 Stainless Steel Screws
Design	Full Latch Coverage

Features

– Stainless Steel Door Latch Guard, durable material with satin finish, strong and corrosion resistant for long term use
– Anti Pry Door Security Plate, reinforces the latch area to prevent forced entry and improve door security
– Full Latch Coverage Design, effectively blocks latch bolt access and makes it difficult to pry open the door
– Heavy Duty Construction, thick and solid structure provides reliable protection for residential and commercial doors
– Easy Installation, quick screw fixing installation, suitable for most outswing doors without complex tools
– Includes 304 Stainless Steel Screws, ensures strong fixing and long lasting durability
– Designed for the Australian Market, meets application needs for outswing door systems
– Wide Application, ideal for home office apartment and commercial door security systems

Confirm on order

Not stated in our published data, so confirm on the order: finish codes, fixing-hole positions, overall dimensions, order code per finish.
