Features

- This commercial aluminum storefront door push-pull paddle lock set is designed for aluminum glass doors, shop doors, office doors, and commercial entrances.
- Left-hand and right-hand options are available. The hold-back function keeps the latch retracted when needed, allowing convenient access during business hours and high-traffic periods.
- With complete accessories and easy installation, this lock set is ideal for storefront door replacement, project installation, commercial door hardware, and aluminum glass door applications.

Confirm on order

Not stated in our published data, so confirm on the order: finish codes, fixing-hole positions, overall dimensions, order code per finish.

As published on [cantonlock.com](https://www.cantonlock.com). The order confirmation is the binding specification.
